panoRama TwoWay Vision

Specially engineered translucent PVC film designed to deliver vibrant window graphics visible on both sides of the glass.

The glossy film projects a luminous visual effect with excellent weather resistance for interior or exterior mount.

Don't let your branding get lost in the dark! The unique, translucent film technology transmits ambient light for vibrant day-to-night window graphics.

Decorative & Functional Applications

Retail Storefronts

Take advantage of prime promotional space to maximize awareness and engagement, day into night.

Corporate, Hotels, Restaurants, Museums, Sports

Enhance and personalize architectural areas.

Educational Institutions

Create an aesthetic flourish in hallways, common areas, and classrooms.

Transportation Centers

Improve the aesthetic of bus stops, transit stations, subways, and airports.

Hospitals, Healthcare Facilities, Spas

Create private spaces without resorting to solid walls.

Create vibrant window graphics—day to night!

Outstanding Print Quality

- Print with 4 colors only – white not necessary
- Excellent durability
- Suitable for solvent, eco-solvent, UV, & Latex ink

Functional Day and Night

- Allows natural light in
- Offers privacy and great light transmission from day-to-night
- Back-lit effect at night when interior lights are on

Easy Application and Removal

- Air egress for DIY installs, no professional installation needed
- Weather-resistant for indoor or outdoor use
- Simply reverse-print graphics or messaging for interior mount applications
- Works well on flat as well as slightly curved glass
